Profile

I am Dedicated and results-driven Pixel Perfect **Front-end Developer** with a passion for creating visually appealing and user-centric web experiences. Proficient in **HTML-**, **CSS**, and **JavaScript** with expertise in **UI/UX** designing and Cypress **Front-end automation testing**. Committed to delivering seamless and responsive interfaces that enhance user engagement and satisfaction.

Employment History

Senior Front End Developer | Front End Developer, oladoc, Lahore

OCTOBER 2020 — PRESENT

- Collaborated with cross-functional teams to design and develop user interfaces for web applications, adhering to **UI/UX** best practices and responsive design principles.
- Utilized **HTML5**, **CSS3**, and **JavaScript** to create visually stunning and user-friendly interfaces and features using **PHP** frame works Ci and Laravel for both mobile and desktop platforms that enhance overall user experience.
- Implemented data visualization tools **(Google Core Web Vitals)** and optimized website performance to enhance loading speed and user engagement .I achieved the **Accessibility** scores up to **95% Best Practices** up to **95%** with **0 CLS** by achieving these scores our site is ranking now With **Best SEO Practices** on top ranking .
- I Removed the **External libraries** like **slick.js** from our product and wrote my own short Script for sliders with smooth animations and fully control of arrow binding. Also used custom grid and flex for our company product and using for new features too instead of **Bootstrap 4** which effect the page speed and site performance.
- Designed and updated layouts to meet usability and performance requirements also centralized the UI using **Live wire** and developed reusable UI components with the help of Backend Developer.
- Produced websites compatible with **multiple browsers**.
- Conducted comprehensive front-end testing, including **Cypress automation testing**, to ensure the robustness and reliability of our company web application I also wrote the automation test cases for our company like **login/signup** flow, Check the **navbar flow for desktop and mobile**, **Doctor Booking Appointment Flow**, **Labs Upload Prescription Flow**, **Labs Test Add to Cart Flow**.
- Followed **SDLC** best practices within **Agile environment** to produce rapid iterations for product.
- Contributed to project within **Scrum project management** environments.
- Improved tools to boost user interaction and deliver design versatility.
- Made recommendations for new technology integration based on suitability and alignment to business goals.

Front End Developer, IT Falcons, Lahore

JANUARY 2020 — OCTOBER 2020

- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Use regulatory and compliance standards for user interface designs.
- Advised internal users on web service capabilities, principles and protocols.

- Coded using **HTML**, **CSS** and **JavaScript** to develop features for both mobile and desktop platforms.
- Produced websites compatible with multiple browsers.
- Teamed on user-centric design strategy in translation of UX and business requirements into coded solutions.
- Researched emerging web technologies and trends for possible incorporation into sites.
- Improved tools to boost user interaction and deliver design versatility.
- Designed and updated layouts to meet usability and performance requirements.
- Advocated for well-tested and documented, high quality code.
- Performed user experience quality assurance testing to identify and remedy shortcomings.
- Tested web-based product functionality and delivered iterations to customer.
- Guided customers on project stages and iterations with input on best practices, user needs and technology capabilities.
- Worked cooperatively with client services, sales and design team in deadline-driven environment.

Front End Developer (Intern), IT Falcons, Lahore

OCTOBER 2019 — JANUARY 2020

- Assisted in the development of responsive websites, optimizing for different screen sizes and devices.
- Gained hands-on experience with front-end technologies, including **HTML5-**, **CSS3**, and **JavaScript**.
- Worked closely with developers on creating new code.
- Supported the testing and debugging of web applications to ensure optimal performance and functionality.
- Developed testing code for web-based applications.
- Developed user interfaces with modern JavaScript frameworks, **HTML5**, and **CSS3**.
- Studied user requirements to gain strong understanding of project initiatives and deadlines.
- Attended development programs to gain competencies and boost skills set.
- Developed user-friendly web forms with validation and error handling.
- Optimized web applications for speed, scalability and security.
- Conceived and built optimized landing pages in **HTML** and **CSS** for integration and cross-browser compatibility.
- Wrote custom **HTML** and **JavaScript** for existing websites.
- Followed best practices for software development and web security.

Education

Bachelor of Computer Science, University of the Punjab, Lahore
